SUMMARY

Self-driven **Software Engineer** with 2 **years** of freelance and industrial experience. Specialized in **React.js**, **Django**, and **Node.js**, with strong command of **JavaScript** and hands-on experience in building **full-stack applications** using **MERN Stack** and **Django REST Framework**. Skilled in developing and integrating **RESTful APIs**, **web scraping**, and **data processing**. Practical knowledge of **application deployment** and extensive use of **Git** for version control. A **quick learner** and **result-oriented** professional with the ability to rapidly adapt to new technologies.

EDUCATION

COMSATS University Islamabad, Lahore **Feb 2020 – Jan 2024**
Bachelor of Science in Computer Science

Punjab Group of Colleges, Pattoki **May 2017 – May 2019**
Pre-Engineering

EXPERIENCE

Software Engineer – React.js /Django Rest Framework: 7 Kings Code Private Limited, Lahore **Nov 2024 – Present**

- Developed scalable web applications using **React.js**, **Next.js**, **Django REST Framework** and **NodeJS**.
- Built secure, RESTful APIs in **Python (DRF)** and integrated them seamlessly with dynamic React frontends.
- Implemented **multi-language (i18n)** support for global accessibility and enhanced user experience.
- Optimized data fetching and state management using **TanStack Query**, ensuring high performance and responsiveness.
- Integrated **JWT authentication** and role-based access control for secure user flows.
- Integrated **4+** major **payment gateways** (Stripe, PayPal, Authorize.net, Square, Clover) for seamless payment processing
- Designed responsive UI components with Tailwind CSS, achieving 95%+ mobile responsiveness scores
- Utilized REST API to enhance user interactions and optimize performance.
- Collaborated in Agile teams, conducted code reviews, and deployed production-ready applications.

TECHNICAL SKILLS

Programming Languages: JavaScript, Python, C++, C

Front-end Development: HTML, CSS, React.js, Tailwind CSS, React Native, TanStack Query

Back-end Development: Node.js, Express.js, RESTful API, MongoDB, Django Rest Framework

Full-stack Frameworks: MERN Stack

Query languages: SQL, Postgress SQL

PROJECTS

Cavayelo USA – Luxury Fragrance E-Commerce Platform | [Link](#)

Tech stack: Next.js, Tailwind CSS, Django, TanStack Query

- Developed full-featured e-commerce website for luxury reed diffusers, car air fresheners, and perfumes with 85+ products.
- Built responsive design with Facebook Pixel integration for marketing analytics and conversion tracking.
- Created an admin dashboard for inventory management and order processing.
- Focused on SEO optimization and performance enhancements for a professional web presence.

7Kings Marketing Solutions – Digital Marketing Agency | [Link](#)

Tech stack: React.js, Tailwind CSS, TanStack Query, Django

- Built a modern, responsive website for digital marketing agency.
- Built a **custom blog CMS** tailored to client-specific requirements, enabling easy content management and publishing workflows.
- Implemented dynamic frontend features and integrated backend functionalities to support client content strategies.
- Ensured cross-browser compatibility, SEO best practices, and efficient page-loading performance.

MerchantMate – Unified Payment Processing Platform | [Link](#)

Tech stack: Next.js, Tailwind CSS, TanStack Query, Django

- Built a comprehensive SaaS platform integrating 5 major **payment gateways** (Stripe, PayPal, Authorize.net, Square, Clover).
- Developed invoice generation system with automated email delivery and payment link distribution to end users.
- Created multi-tenant architecture supporting multiple companies with isolated data and custom branding.

DevLabyrinth | [Link](#)

Tech stack: Next.js, Tailwind CSS

- Developed a responsive, full-featured website for DevLabyrinth, a custom software and AI automation company, highlighting services like enterprise software, web/mobile app development, AI workflows, cloud architectures, and cybersecurity to support global business growth.

MED TEK Services | [Link](#)

Tech stack: React.js, Tailwind CSS, TanStack Query, Django

- Developed a medical billing and RCM platform for MedTek Services using React.js and Django REST.
- Implemented modules for provider enrollment, claims management, and medical coding services.
- Optimized performance and data consistency using React Query and RESTful APIs.
